

Cellular Phone Policy

When you step into our office, your healthcare is our number one priority. Our goal is to give you and your fellow patients the best care possible. That is why we ask that you please refrain from using your cell phone when you are with a physician or one of our staff members. If you must take a call, or have an important call to make, please step outside to do so.

If you are getting treatment we ask that you keep your conversations to a minimum out of respect for the other patients in close proximity.

The providers at Hematology Oncology Consultants appreciate your cooperation.
